Inbound French M&A at new 12-month low

The volume and value of mergers and acquisitions (M&A) targeting companies based in France continued on a downwards trend in May that reversed gains made in February when inbound activity reached a 12-month high of 244 deals worth a combined EUR 14,336 million. In all, 72 deals completed in May valued at an aggregate EUR 1,288 million, representing a new 12-month low.

A lack of dealmaking worth EUR 500 million or more suppressed M&A value in May: the largest deal that completed over the four weeks featured La Caisse de depot et placement du Quebec acquiring a 10 per cent stake in Spie for EUR 268 million. Another North American acquiror completed the second-largest deal of the month as Goldman Sachs' West Street Capital invested EUR 171 million in Voodoo to help make companies based in the US the top French inbound acquiror by value, with USD 467 million, though the US matched the UK in terms of volume with 18 inbound deals apiece.

Inbound PE and VC remained buoyant in May, despite value decline

The volume of inbound private equity and venture capital investment in French companies remained on an even keel in May to match the 7 deals that completed in April and in May 2017.

In contrast, the value of these financial sponsor-backed investments failed to stem an 83 per cent month-on-month decline that led to dealmaking of EUR 454 million from EUR 2,611 million in April.

It is worth noting this slump was starkly highlighted by April being a 12-month high on the back of two institutional buyouts worth an aggregate EUR 2,600 million, especially considering May's value was the third-highest recorded for the trailing 12 months and was up on the EUR 109 million-worth of deals recorded in May 2017.

Financial sponsors based in North America were the main PE and VC investors in French companies in May due to La Caisse de depot et placement du Quebec injecting capital into Spie and Goldman Sachs backing Voodoo.

The remaining five deals were all worth less than EUR 5 million and featured the likes of Global Founders Capital Management, Balderton Capital and Piton Capital taking part in funding rounds by Proprioo, TAP Sound System and Procsea France.

In terms of volume, US-based investors were the most prolific after completing three deals over the four weeks, followed by the UK with two.

Outbound French value up in May despite month-on-month decline in volume

The aggregate value of outbound French M&A increased in May, climbing 15 per cent from EUR 8,236 million in April to EUR 9,474 million. By contrast, volume actually declined over the four weeks, dropping from 59 deals to 50. Value was also up year-on-year, but to an even greater extent (May 2017: EUR 1,976 million), while volume remained static over the 12 months.

Value was boosted by two sizeable deals in May. The largest outbound deal of the month under review was worth EUR 4,500 million and saw Kering decrease its stake in German sports shoes manufacturer Puma by demerging 70 per cent of the business to Artemis, among other investors.

This was followed by a EUR 2,694 million acquisition of Schenker-Winkler Holding by Compagnie de Saint-Gobain. No other deals broke the EUR 1,000 million-barrier in the month under review and those two deals alone accounted for 76 per cent of total outbound French value in May.

Outbound French PE and VC investment declines in May

The volume and value of outbound French PE and VC dealmaking declined as 15 deals worth a combined EUR 288 million completed in May, compared to the EUR 1,001 million invested across 17 deals in April. The result also represent a decline on May 2017, when there were 17 deals worth EUR 359 million.

The lack of a very large deal suppressed value in the month under review as the month's most valuable deal was worth just EUR 152 million and took the form of a funding round by Estonia-based Taxify, with participation from Korelya Capital, as well as Daimler, Xiaoju Kuaizhi and Taavet Hinrikus. This dwarfed the second-placed deal – a EUR 25 million Series B injection in Spanish online courier and express delivery services provider Ninjatruck from investors including IDInvest Partners, Total Energy Ventures International and Cathay Innovation.

Domestic M&A value more than doubled month-on-month

The value of domestic French M&A more than doubled over the four weeks under review as volume slipped 41 per cent to 69 deals worth an aggregate EUR 4,980 million in May from 117 deals worth EUR 2,002 million in April. The significant increase by value was attributable to one deal that was worth over EUR 4,000 million and it accounted for 92 per cent of the month's total value.

This deal involved Accor selling a majority stake in hotel operator AccorInvest to Public Investment Fund, GIC Private Markets Private, Credit Agricole Assurances and Colony NorthStar, among other buyers, for EUR 4,600 million. The deal was the only one in May to exceed EUR 1,000 million and it was worth significantly more than the second-largest deal as OpenClassrooms raised EUR 51 million from investors such as Citizen Capital, BPIFrance and Alven Capital.

Unsurprisingly, given the month's largest domestic M&A deal featured a hotel operator, the hotels and restaurants sector was top by value during the four weeks under review with EUR 4,635 million, a large improvement on the EUR 0 million recorded in April and EUR 13 million completed in May 2017.

Accor deal boosts domestic PE and VC value

Accor's sale a majority stake in AccorInvest was also the largest domestic French PE and VC deal that completed in May and it resulted in a four-fold increase in value to EUR 4,932 million.

In terms of volume, this represents a 13 per cent decline from 52 deals in April to 45 in May, though this was an increase of 29 per cent from 35 deals in May 2017. Value jumped significantly from EUR 1,181 million in April and improved 84 per cent year-on-year from EUR 2,685 million.

Amundi Private Equity Funds was among the companies to invest in the month's top domestic PE and VC deal. Other investors during May included BPI France, which featured in six of the top 20 deals, IDInvest Partners targeting four of the top 20, and Kima Ventures and Daphni each featured twice.

Again, the hotel and restaurant industry was top by value due to the AccorInvest deal, while the machinery, equipment, furniture and recycling, wholesale and retail trade, publishing and printing and construction all notched up investment in May.
